

No. of Functional Features Included in the Solution

Date: 29 September 2026

Team ID: SWTID-2026-8065

Project Name: Implement Client Script & UI Policy (Incident)

Maximum Marks: 5 Marks

Functional Features Overview:

This document lists the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall Incident-management solution.

S.No	Feature Name	Feature Description	Module / Component	Status	Marks	Contribution
1	High Impact Control	Applies additional controls when Incident Impact is set to High.	HighPolicy – Incident	Done	1	Controls Incident form behavior based on impact level.
2	Assignment Group Mandatory	Makes Assignment Group mandatory when Impact is High.	UI Policy Action	Done	1	Helps ensure required assignment group is selected.
3	Urgency Read-only Control	Makes Urgency read-only when Impact is High.	UI Policy Action – Urgency	Done	1	Controls user editing of Urgency for high impact incidents.
4	Auto Set Urgency	Automatically sets Urgency to High when Impact changes to High.	onChange Client Script	Done	1	Automates Urgency and reduces manual input.
5	Assigned To Save Validation	Prevents saving a High Impact Incident when Assigned To is empty.	onSubmit Client Script	Done	1	Ensures required information is present before saving.
6	State List Edit Blocking	Prevents direct State changes through Incident list editing.	onCellEdit Client Script	Done	1	Restricts unauthorized State changes from the list.
7	Reverse Condition Behavior	Reverses mandatory/read-only behavior when Impact changes from High to Low.	UI Policy HighToLowRevert.js	Done	1	Restores normal field behavior when severity is reduced.
8	Configuration Testing	Tests mandatory enforcement, successful save, reverse condition, and field blocking and configured behaviors.	Testing IncidentM	Done	1	Verifies that the implemented features work as intended.

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6
Additional / Nice-to-Have Features	2
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	5	High Impact Control, Assignment Group Mandatory, Urgency Read-only, Reverse Condition, Auto Set Urgency
2	Backend / Logic	3	onChange, onSubmit and onCellEdit Client Scripts
3	Database / Storage	0	No database/storage feature is specified in the project documentation.
4	API / Integration	0	No API/integration feature is specified in the project documentation.
5	Security / Authentication	0	No security/authentication feature is specified in the project documentation.

Source basis: The project documentation defines the Incident UI Policy, UI Policy Action, onChange, onSubmit and onCellEdit Client Script features and their testing. ■filecite■turn2file0■L46-L60■ ■filecite■turn2file0■L78-L105■ ■filecite■turn2file0■L107-L125■ ■filecite■turn2file0■L138-L168■ ■filecite■turn2file0■L170-L195■
